Jambread**

What is SEO?

Search Engine Optimisation

SEO is the process of helping content get found more easily in a search engine.

Content could be websites, individual web pages, images, apps, videos and documents like PDFs.

Search engines are vast and varied from Google to Bing, to Pinterest (images), YouTube (videos) and App Marketplaces like Google Play and the App Store.

the goal of SEO is to improve rankings, get more traffic/views/downloads and improve the bottom line of your business.

Things we can help with

Jambread offers customised SEO services that deliver results anywhere along your business journey

- SEO Strategy
- Technical SEO
- E-commerce SEO
- International SEO
- SEO for Apps
- SEO for Videos
- Website Audits
- Website Migrations
- New Website Launches
- Content Writing
- Online Reputation Management
- On-site & Remote SEO Clinics

How much does SEO cost?

It depends on many factors.

Jambread prices SEO services based on the scope of the project.

These typically centre around the size of the website, nature of the site (brand new, old, many problem found, etc), the intensity of the competition and general work required to improve visibility and achieve end goals.

At Jambread, we pride ourselves on an all-inclusive, done-for-you SEO service.

Everything that can be done, will be done.

Budgets are discussed on the first **discovery call** to better understand your needs and how we can best work together.

Service Inclusions

Comprehensive SEO Consultancy

This means: we do everything required to build and maintain visibility in search engines.

It typically includes:

- keyword research and rank tracking
- competitor research, analysis and monitoring
- audits with recommendations
- hands-on implementation of recommendations
- content writing
- analytics monitoring
- website performance monitoring
- acquisition of links from other websites
- regular progress calls & monthly reports

We really mean it when we say: **everything that can be done, will be done.**
